

HW Fisher & Company

Proud partners of the Brit Writers' Awards

The Authors and Journalists Team at HW Fisher & Company is wholly dedicated to writers. Our clients include authors, playwrights, poets, national press and magazine journalists, broadcasters and scriptwriters.

As specialists, we have a complete understanding of relevant tax legislation and many years' experience in helping clients to minimise their tax liability. Our services include income tax planning, VAT consultancy and financial counseling. We also advise on income from abroad, the use of limited companies, systems and accounts, pensions and life assurance, and mortgages.

A number of our clients are best selling authors or household names in the media world. Others are at an early stage of their career. Either way, we aim to make a significant contribution to their financial security and prosperity.
